Mr. King:

Thank you for your inquiry to the County of Bedford, Pennsylvania with your request for information pursuant to the Pennsylvania Right-To-Know law.

As the Right-to-Know Officer, I received your request via email on April 5, 2022, whereby you requested:

1. All records referring to the taxpayer-funded installation of solar panels, solar arrays, solar generators, or associated technologies from January 1, 2016, through April 1, 2022. Taxpayer funding sources include all state, county and municipal entities in the state of Pennsylvania. Records include (but are not limited to) correspondence, meeting minutes, grant applications, permits, and contracts.
2. All records referencing grant applications - including (but not limited to) applications, correspondence, meeting minutes - from the County, or any County-affiliated agency, to the PA Department of Community and Economic Development, between January 1, 2016, and April 1, 2022."

I had submitted what information I had on May 5, 2022, pertaining to your request. I was able to recover a document signed by Commissioner Josh Lang, the Developer's Agreement. The Planning Department reviewed the agreement. I have researched the Commissioners meeting minutes, and nothing was identified in our records relating to the solar energy project. All applications and materials were submitted to DCED through RER Energy.

I trust this information is pursuant to the subject of your request. Please be advised that this correspondence will serve to close this record with our office as permitted by law.

Respectfully,

*Debra Brown*
