Commissioners,

Thank you for taking time for my phone call today Commissioner Lang. As per our conversation, my Husband Todd Greenawalt and I wanted to know – Why? Why was our family owned Motorcoach Business not given more funds on the second round? As you know we have been serving Bedford County for 72 years and have expanded our Company from the 1 Motorcoach that Todd's Great Grandfather Stanley Bollman started to 16 Motorcoaches today. Our Company has a large domino effect to our fellow Bedford County businesses, as we purchase our diesel fuel, parts and office supplies from local companies. Our Company came to

screeching halt on March 13, 2020 and we have furloughed our 30 employees and we will probably not see a need for Buses till Spring of 2021.

As Commissioner Lang stated you had guidelines to follow with our DCED Expenditures information and I understand that. The unforgiven portion is yet to be determined as the Federal Government has just released guidance for our submission of paperwork. We thought with the explanation of how our Business was affected on our Grant Paperwork, that you would take into consideration how our particular business was decimated. Millions of dollars were lost. We believe that out of all the businesses in Bedford County, we have been hit the hardest. We have worked hard to keep our bills paid and we have issued back Refunds and continuing to issue back refunds to our Community. Without our Community we would not be here today. We have not regained or shall I say fully opened back up to where we were last year this time. We are the only company/industry that has not opened up.

[REDACTED]

Yes, we are asking for special consideration for any funds that can be given to our Company. As I stated to Commission Lang, you can only imagine what even \$10,000 would do for our Company to help us sustain during this crisis.

I thank you for your time and would appreciate anything that you can do us.

Good morning Dwayne,

Thank you for sending the invoices thus far. If you could send us a certification page of some sort or any tests that would be greatly appreciated. We will need this to process and release the funds. Also I am showing so far \$183,457.89 in total reimbursement requests. I assume we are waiting on some additional invoices correct? Any updates would be appreciated. I have included our CARES funding team on this email so we can expedite quickly.

Broadband Funding Proposal Now Law

Legislation to help boost broadband access in the state's most rural communities has been signed into law.

Act 132 of 2020 creates the Unserved High-Speed Broadband Funding Program to provide grants in support of broadband expansion in areas most in need of these services. Initial funding comes from a repeal of the \$5 million Mobile Telecommunications Broadband Investment Tax Credit, though the law calls for supplementing the \$5 million with additional state or federal funds.

The grant program will be administered by the Commonwealth Financing Authority. Preference will be given to projects in the most unserved areas of Pennsylvania as defined by the Federal Communications Commission's minimum speed requirements and to projects that already have federal funding allocated to them.
