Dear Commissioners:

As a follow up to our meeting, Susquehanna Accounting & Consulting Solutions, Inc. ("SACS") is pleased to present this proposal to provide non-attest accounting and consulting services to Bedford County (the "County") under the direct supervision, review and approval of County management. This letter is to serve as our proposal and agreement, and to confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide to the County.

Specifically, we will provide technical assistance and advice in relation to the program expenditures and general administration of the CARES Act funding from March 1, 2020 through December 30, 2020. Corey A. Troutman will oversee these services and incorporate other SACS consultants and subcontractors as necessary.

We will bill you for actual hours incurred at the following discounted hourly rates by level:

Shareholder/Director	\$265
Senior Managing Consultant	195
Senior Consultant	175
Consultant	120

SACS will bill monthly for these services at the above hourly rates plus actual out-of-pocket expenses. All invoices are due and payable upon presentation. For invoices due over 30 days, a finance charge is assessed on unpaid balances at the rate of one (1%) per month (twelve percent (12%) per annum). We reserve the right to halt work if balances remain unpaid after thirty (30) or more days from the invoice date, and not to resume work until all overdue amounts are paid in full. Any balances remaining unpaid after sixty (60) days or more days may, at our option, be formalized by the execution of a promissory note. You agree that you shall be liable for all reasonable costs we incur in collection, but not limited to, reasonable attorney fees.

 - Alan had temporary admin rights in the recent past but that was removed
 - I believe the reason for this error is because he used his login to setup offline files for Bobbie and once the admin rights were removed this caused her offline file sync to fail with access denied
 - removed his credentials and offline files completed the sync

		Contact: Brown, Debra Darren, There are drops already there, they were installed when the building was built they are they nicely labeled and terminate into IDF's called TC's in various locations. The IDF's are then connected with fiber to the MDF in the server room. No drops were installed specifically for the new voting equipment. If you need connectivity between floors I will need to build a VLAN [REDACTED] and patch the drop in. I do not know what equipment they are getting or where it's going. There was talk of it being all in one room (which I will not be needed) on the 3rd floor but then there was questions on how this will work on the 1st floor during election days. Does the tally equipment and server get moved to the 1st fl?
